DETAILED ACTION

Status of the Application

The IDS PTO-1449 with attachment (Paper No. 7) received on 18 June 2002 has been entered.

Claims 1-16 of the present Application are pending and subject to restriction requirements.

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-12, drawn to a method for monitoring and controlling biocatalytic efficiency of a wastewater treatment process, classified in class 435, subclass 29.
 - II. Claims 13-16, drawn to a method of maintaining a viable culture in an activated sludge environment in the absence of carbon influx, classified in class 435, subclass 260.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are drawn to different subject matters (i.e. Invention I is drawn to a monitoring method whereas Invention II is drawn to a culture method). Thus the instant inventions have different modes of operation, function and effects.

3. Because these inventions are distinct for the reasons given above and
 - a. have acquired a separate status in the art as shown by their different classification;
 - b. have different and separately burdensome: manual and/or computer: structure, name and bibliographical searches; and
 - c. have divergent subject matter,restriction for examination purposes as indicated is proper.
4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
